## FASHION & APPAREL DESIGN

Fashion design is the art of applying design, aesthetics, clothing construction, and natural beauty to clothing and its accessories. It is influenced by culture and different trends and has varied over time and place.

## INTERIOR & ARCHITECTURE DESIGN

Interior architecture is a practice that incorporates the art of design and the science of architecture, and it focuses on the technical aspects of planning and building a room. This field involves making the room safe and functional as well as designing aesthetically-appealing lighting, color, and texture for a space.

## GRAPHIC & MULTIMEDIA ANIMATION

Graphics & Animation means giving life to any object in computer graphics. It has the power of injecting energy and emotions into the most seemingly inanimate objects. Computer-assisted animation and computer-generated animation are four categories of computer Graphics. It can be presented via Photo, Film, Video & animation.

## WEB DESIGN ( UI& UX )

Web design and development is an umbrella term that describes the process of creating a website. As the name suggests, it involves two major skill sets: web design and web development. Web design determines the look and feels of a website, while web development determines how it functions.
